THE IDEA

In our busy lives, we often forget important tasks and appointments, causing stress and disorganization, especially with distant dates. 'Remind Me' is the solution. The app lets you set reminders for tasks, appointments, and distant dates, making organization and daily life stress-free. With just a few taps, you can easily schedule and manage reminders.

DATA BASE

The image features a white background with decorative elements in the corners. In the top-left corner, there are two overlapping circles: a large, solid blue one in front of a slightly larger, light blue one. In the bottom-right corner, there are also two overlapping circles: a medium-sized light blue one behind a smaller, solid blue one. Centered on the page is the text "Thank you" in a dark blue, italicized serif font.

Thank you
